- Q.2. Make a précis of the following in your own English. (Credit will be given to your own words, not just copying from the question paper). Also suggest a suitable title. (20)

Real beauty is as much an affair of the inner as of shape, colour, and surface texture. The jar may be empty or tenanted by spiders, full of honey or stinking slime – it makes no difference to its beauty or ugliness. But a woman is alive, and her beauty is therefore not skin deep. The surface of the human vessel is affected by the nature of its spiritual contents. I have seen women who, by the standards of a connoisseur of porcelain, were ravishingly lovely. Their shape, their colour, their surface texture were perfect. And yet they were not beautiful. For the lovely vase was either empty or filled with some corruption. Spiritual emptiness or ugliness shows through. And conversely, there is an interior light that can transfigure forms that the pure aesthetician would regard as imperfect or downright ugly.

There are numerous forms of psychological ugliness. There is an ugliness of stupidity, for example, of unawareness (distressingly common among pretty women), an ugliness also of greed, of lasciviousness, of avarice. All the deadly sins, indeed, have their own peculiar negation of beauty. On the pretty faces of those especially who are trying to have a continuous good time, one sees very often a kind of bored sullenness that ruins all their charm.
