Paper: I (Old Course)

(SPECIAL EXAM)

Time: 3 Hrs. Marks: 100

Q1- Attempt ANY THREE of the following questions. (150 – 200 words) (3x10=30)

Summary writing (of any story), or any irrelevant detail, will be strictly penalized. Stick to your argument and analysis.

- IV. Discuss the importance of love and support in childhood in the story *The Door in the Wall*.
- V. Explain the idea of death in the story *How It Happened*.

Q2- Make a precise of the following passage in your own English. Credit will be given for your own words, not just copying from the question paper. Suggest a suitable title as well.

(13+2= 15)

In developed democracies like the US, UK, Germany, or France, we see a "freedom of speech" that is different from what we see in authoritarian countries like China, Malaysia or Syria and failed democratic countries like Pakistan or Rwanda. These governance systems failed because they lacked freedom of speech. Freedom of press gives us a yardstick to gauge the freedom of speech in a country. A healthy, liberal, and strong democracy is reflected by a strong media presence in a country since they are supposed to be the voice of the common people. A democracy that has a stomach for criticisms and disagreements is taken in a positive way. Some governments get very hostile when faced with any form of criticism and so they try to oppress any voices that might stand against them. This becomes a dangerous model of governance for any country. For example, India has more than hundred and thirty crores of population now and we can be sure that every individual will not have the same thought process and same views and opinions about one thing. A true democracy is made by the difference of opinions and the respect people have for each other in the team that is responsible for making the policies. Before making a choice, all aspects and angles of the topic should be taken into consideration. A good democracy will involve all the people - supporters and critics alike, before formulating a policy, but a bad one will sideline its critics, and force authoritarian and unilateral policies upon all the citizens.

The culture of nuclear families is in fashion. Parents are often heard complaining about the difficulties in bringing up children these days. Too much of freedom in demand, too much independence; overnight parties; excessive extravagance, splurging pocket money; no time for studies and family all this is a common cry of such families. Aren't parents, themselves, responsible for this pitiful state? The basic need of a growing youth is the family, love, attention, and bonding along with moral values. One should not forget that 'charity begins at home'.

Independence and individuality both need to be respected, to maintain the sanctity of family. Children today are to be handled with tact to bridge the ever-widening generation gap. Only the reasonable demands need to be fulfilled, as there are too many expenses to be met and too many social obligations to be taken care of by the parents. Our forefathers lived happily in joint families. Children loved to live with their cousins, learnt to adjust within means. There was perfect harmony between the generations. There never existed the concept of old-age homes. There was deep respect for the family elders and love, care, and concern for the youngsters. Even the minor family differences were solved amicably.

Questions.

1. Mention any two major common concerns of a nuclear family.
2. Who, according to the passage, are responsible for them? Explain your opinion.
3. Explain the expression 'charity begins at home'.
4. Describe the atmosphere in joint families.
5. Which word in the passage means 'Holiness of life'? Describe the phrase and meaning.
