## Foreword

The brief fact book on the University of the Punjab (PU) will give the reader all basic facts and figures pertaining to PU in 2012. I would like to thank Prof. Dr. Mansoor Sarwar for his thought and effort in preparing this booklet, which was conceived by the two of us together. I would also like to thank Engr. Tariq Majid Qureshi, Rao Muhammad Sharif, and Prof. Dr. Rukhsana Kausar for their contribution to this fact book.

As the reader will notice, certain basic parameters, which indicate the performance of a university, have improved steadily and very significantly since January 2008 when the present administration assumed charge. The number of research publications in journals carrying an impact-factor has more than tripled from 162 in 2007 to 546 in 2012. Publications in HEC recognized journals are in addition to these. Further, for the first time in the history of the university, the total number of publications in journals and conferences has crossed 1000. The number of books published by PU faculty members in the period 2008 to 2012 is 350, i.e., an average of about 70 per year. In 2007, this number stood at only 27. In 2012, 106 books were published by faculty members.

Research funding has been increased from Rs 4 million in 2007–2008 to Rs 85 million in 2012–13. A research endowment fund currently at Rs 360 million exists in addition to this research funding. Funds for Faculty Development have been enhanced from Rs 45 million in 2007–2008 to Rs 75 million in 2012–13. This is in addition to HEC funded Faculty Development program. Under the two programs over 100 faculty members have been sent abroad for PhD studies and many of them have returned in the past one or two years, adding to the pool of PhDs in PU. An amount of Rs 20 million

## Fact Book 2012

endowment fund for the welfare of employees has also been created. The investment of PU has risen from Rs1.85 billion in June 2008 to Rs4 billion in June 2012.

For the first time in PU history, the full-time faculty strength crossed the landmark number of 1000. The PhD to non-PhD teacher ratio has also increased by almost 15% for regular faculty members since 2008, jumping from 29% for regular faculty members at the end of 2007 to 43.29% in 2012. PhD production has suddenly risen from an average of 41 per annum during 1990-2007 to 136 per annum during the period 2008 to 2012. In 2012 the Punjab University produced 206 PhDs, becoming the first ever university in the history of Pakistan to produce more than 200 PhDs in one year. The percentage of MS/MPhil and PhD students at the university has increased from 5.66% in 2011 to 7.65% in 2012.

Our students have performed extremely well in all kinds of co-curricular activities in previous years as will be seen from various tables. In 2012, more than 40% regular full-time students were given scholarships worth about Rs 100 million, mostly through PU income (Rs71 million). The Government of the Punjab also provided scholarships worth Rs22.75 million approximately.

Regular convocations on yearly basis have been restored after four decades. The institution of Professor Emeritus has been revived after a decade and a half, a revival that has been applauded by intellectual circles of the country. The academic atmosphere has been restored after decades.

At the end of the booklet we have a list of FAQ's and answers. It is hoped that this fact book, the second one ever published by the University of the Punjab, will be of use to anyone seeking information about this institution that can be obtained at a glance.
