

Dr Qurra-tul-Ann Afza Gardner
Associate Professor

Institute (and Postal address): School of Biological Sciences,
University of the Punjab, Lahore, PO. 54590. Pakistan.

Tel. Off: +92-042-35953141

Email: qagardner.sbs@pu.edu.pk, annegardner80@yahoo.co.uk,

Date of Birth: 13-09-1980

ACADEMIC QUALIFICATION

	University	Subject	Specialization	Period
Ph.D.	Supervisor: Prof M Akhtar FRS University of Punjab, Lahore	Biological Sciences	Biochemistry. Thesis: Studies on the Production of Recombinant Human Insulin and its Precursors	2003 - 2009
Post Doctorate	1. Supervisor: Prof M Akhtar FRS, University of Punjab, Lahore.	Biological Sciences and Mass Spectrometry	Molecular biology, Biological mass spectrometry and biochemistry	Dec 2009 – May 2011
	2. Supervisor: Prof. Anne Dell CBE FRS FmedSci, Imperial College, London, UK	Biological Mass Spectrometry	Proteomics and Glycoproteomics	Aug – Oct 2010, and Aug – Oct, 2011
	3. Supervisor: Dr PT Williamson, University of Southampton, UK	Molecular and structural Biology	Molecular and structural elucidation of fibrils	July – Aug 2013 and July – Aug 2015

- **M.Sc. in Biochemistry**, 2000–2002 (1st Division), from Institute of Biochemistry and Biotechnology, University of the Punjab, Lahore. **Thesis:** Evaluation of thyroïdal disorders during pregnancy.
- **B.Sc.** (Pre-medical; Zoology, Botany & Chemistry), 1998–2000 (1st Division), Lahore College for Women, Lahore
- **F.Sc.** (Pre-medical; Biology, Chemistry, Physics), 1998, (1st Division), Lahore College for Women, Lahore
- **Senior Cambridge** (Biology, Chemistry, Physics), 1995 (19 Grade) from Cathedral High School, Hall Road, Lahore

CURRENT POSITION: (31st august 2018, to-date) Presently working as an Associate Professor (TTS) in Biological Mass Spectrometry and Biochemistry, in School of Biological Sciences, University of the Punjab, Quaid-e-Azam Campus, Lahore.

PREVIOUS SERVICE RECORD

- **Assistant Professor (TTS):** In School of Biological Science (SBS PU), 15- 11- 2011 to 30-08-2018
- **Senior Experimental officer (BS-19):** (2nd June-14th November 2011), in biological mass spectrometry, SBS, PU.
- **Post-doctorate: (December 2009 – May 2011),** in Mass Spectrometry in SBS, PU.
- **Research Officer: (June – December 2009),** as a Mass spectrometrists in SBS, PU.

Research Experience and Accomplishments

I am a biochemist with specialisation in biological mass spectrometry. Presently, I am working as an Associate Professor (TTS) in School of Biological Sciences, University of the Punjab, Quaid-e-Azam Campus, Lahore. I did my Ph.D. in biochemistry under the supervision of Prof M Akhtar FRS, in 2009. My Ph.D. thesis entitled “Studies on the Production of Recombinant Human Insulin and its Precursors” which highlighted the possible solutions to overcome the problems involved in the production of biologically active insulin.

I did my Post-doctorate in mass Spectrometry and proteomics with Prof M Akhtar FRS and part of my post-doctoral training was done at Imperial College, London, UK, under the supervision of Prof. Anne Dell CBE FRS FmedSci. I also worked as a visiting Scientist and International collaborator with Dr PT Williamson at University of Southampton, UK on structural elucidation of fibrils using insulin as a model protein.

My research focuses on the production and characterization of clinically important proteins among which insulin, proinsulin, interferon and various clinically important enzymes are important, involving their structural elucidation by employing mass spectrometry. Parallel studies of our group on interferon α -2 β have greatly benefitted from my experience of protein mass spectrometry which led to production interferon with enhanced biological activity. My research has contributed to the development of mass spectrometric and structural biology field in Pakistan along with the production of biopharmaceutically important proteins.

Due to my experience in mass spectrometry and competency, BRUKER DALTONIKS (GmbH) has supported the upgrading of current MALDI mass spectrometer in my institute for biotyping of clinical and environmental samples i.e. identification of microorganisms by MALDI finger printing. This is the first ever set-up of MALDI biotyping in Pakistan for the quick identification of microorganisms by MALDI mass spectrometry.

I have collaborations with different universities, institutes and hospitals on various proteomics related and MALDI biotyping problems. I am fully involved in teaching various M. Phil. and Ph.D. courses and conducting examinations.

As an in charge of mass spectrometric facilities, I am rendering my services to various researchers on various mass spectrometric related problems and keeping the mass spectrometers alive in my institution. I work on developing various protocols for difficult to analyse biological proteins and post-translational modification by advanced proteomics techniques using MS/MS analysis.

I am fully involved in various departmental advisory and administrative duties, among which the most important is being in charge of core biophysical facilities. This includes the maintenance, providing central mass spectrometric and protein purification facilities and radioactive laboratory as a radiation protection officer.

AWARDS/ HONOUR

- HEC approved supervisor for conducting PhD research since April 2012.
- Grants awarded: Please see grants awarded section
- Visiting faculty member, in Undergraduate block, University of Punjab, teaching, BS honours Chemistry
- First MALDI biotyper in Pakistan, in collaboration with Bruker (GmbH) and Rays Technologies.
- I have been selected as an international reviewer for the journal Rapid communication in mass spectrometry, and for the Pakistan Journal of Zoology, in which I dealt with paper related to mass spectrometry as my expertise in biological mass spectrometry.

- Ph.D. fellowship in School of Biological Sciences, University of the Punjab, Lahore (2003 – 2008).
- Post-doctoral fellowship in School of Biological Sciences, University of the Punjab, Lahore (December 2009 – May 2011).
- HEC funded training abroad in mass spectrometry in Imperial College London for six months under the supervision of Prof Anne Dell CBE FRS FmedSci (August – October, 2010 and August – October, 2011).
- As a Guest Mass Spectrometrists Speaker in various mass spectrometry workshops
- M.Sc. Scholarship from Institute of Biochemistry and Biotechnology, University of the Punjab, Lahore (2002).
- Scholarship from Lahore College for Women, Lahore (2001).
- President's Talent Scholarship from University Grants Commission (UGC) (1999).

GRANTS

Sr. no.	Title of project	Status	Role	Initiation date	Completion date	Amount	Funding source(s)
1	HEC grant on the maintenance of the mass spectrometer MALDI TOF/TOF (HEC ref no. 1-12 (07)/ MSE/ R & D/ HEC/ 2014).	Completed	Principal investigator	Award letter on 11 th March, 2014	Consolidated report was submitted on 18-4-16	Rs. 1.0 million	HEC Islamabad, Pakistan
2	Rapid refolding of recombinant human insulin derivatives and their structural elucidation by proteomics.	Completed	Principal investigator	Notification Award letter No. D/4112/Est: I Dated 13-9-17, Sr. No. 107	August 2018	Rs. 0.15 million	University of the Punjab, Quaid-e-Azam campus, Lahore.
3	Studies on serum amyloid-P component in relation to its binding with physiologically important fibril-forming proteins	Awarded	Principal investigator	Awarded (4-2-19)	Feb, 2022	Rs. 2.543374	HEC NRPU

INTERNATIONAL PUBLICATIONS

1. Up-regulated expression of calcium dependent Annexin A6: A potential indicator of ovarian carcinoma. Noreen, S., **Gardner, Q.A.**, Fatima, I., Sadaf, S. and Akhtar, M. W. **Accepted in *Proteomics Clinical Applications*. 2019. Impact factor 2.35**

RESEARCH SUPERVISION

M.Phil. Thesis Supervised: 11

M. Phil supervision under progress: 03

Ph.D. Supervision completed: 1

Ph.D. Supervision in progress: 3

M. Phil COMPLETED: Following students successfully completed their M. Phil theses under my supervision:

1. **Sitara Nasar 2018:** Genetic engineering and characterization of a novel human cytochrome b5-proinsulin chimera.
2. **Saira Ahmad 2018:** Optimization for the preparation of insulin acyl derivatives and their specificity for carboxypeptidase B
3. **Syeda Sadia Bukhari 2018:** First studies on the identification of microorganisms in Pakistan by MALDI biotyping.
4. **Samrah Munir 2018:** Studies on the cross-reactivity of insulin and its precursors against antibodies related to insulin.
5. **Sara Ajmal 2018:** Studies on the fibril formation of insulin derivatives
6. **Sana Muqaddas 2017:** Preparation and characterization of recombinant LISPRO human proinsulin and its derivatives
7. **Ayesha Talib 2017:** Expression, Purification and Characterization of bubaline (*Bubalus bubalis*) serum amyloid A
8. **Hamayun Arshad 2016:** Comparative studies on the characterization of full-length and truncated bubaline serum amyloid-A derivatives.
9. **Chandni yaqoob 2014:** Cloning and expression of buffalo (*Bubalus bubalis*) serum amyloid A.
10. **Shakir Hafeez 2012:** Preparation of genetically engineered human proinsulin and its characterization.

11. Muhammad Arif 2012: *In vitro* refolding of recombinant human proinsulin using *Escherichia coli*, cytoplasmic system.

M. Phil under supervision: Following students are doing their M. Phil theses under my supervision:

1. **Sana Samson** : Effect of cytochrome b5 on the *in vitro* refolding of proinsulin derivatives
2. **Rida Fatima:** Engineering of novel interferon derivatives and assessment of their half-life
3. **Noor-ul-Ain:** Enhancing the yield of *in vitro* refolded interferon derivatives and studying their *in vivo* half-life properties

Ph.D. Students:

- **PhD completed:**

Munir Ahmad (2015): Optimization of conditions for the folding and bioprocessing of different derivatives of human insulin.

- **PhD in progress:**

1. **Nadia Hassan: Studies on the genetically engineered derivatives of human insulin precursors (Thesis under evaluation)**
2. **Hamayun Arshad:** Characterisation of Surface layer proteins from local bacterial isolates
3. **Saira Ahmad (Researcher in NRPU grant awarded, 2019):** Studies on fibril-forming proteins and their binding affinity with serum amyloid P-component

MASS SPECTROMETRIC TRAINING COURSES

1. ***Post-doctoral experience abroad as a biological mass spectrometrist*** (Aug – Oct 2010, and Aug – Oct, 2011): During my post-doctoral research I was offered a scholarship for the advanced training abroad on mass spectrometry funded by HEC for six months My research on glycoproteomics, in **Imperial College, London, UK**, under the supervision of **Prof. Anne Dell CBE FRS FmedSci**, was concerned with the finding of glycan modifications in various mutants of *Solfolobus acidocaldarius* and *Solfolobus solfataricus* by LC-MALDI MS MS and interpreting the offline and online-LC MS MS data for the N-glycosylation mapping of S-layer in these microorganisms.

2. MALDI-BIOTYPING training with the Bruker Daltonik GmbH Autoflex III TOF/TOF™ from 2nd –5th May, 2017 organized in School of Biological Sciences, University of the Punjab, Lahore and Rays Technologies.
3. MALDI-TOF-MS MS Advanced training with the Bruker Daltonik GmbH Autoflex III TOF/TOF™ from 14th – 16th June, 2011 in Bremen, Germany, supported by Rays Technologies.
4. Agilent LCMS Time-of-Flight training at NUS Singapore MIT Alliance for Research and Technology from 21st – 25th September, 2009, supported by School of Biological Sciences, University of the Punjab, Lahore.
5. MALDI-TOF-MS Operator training course 'Proteomics' with the Bruker Daltonik GmbH Autoflex III TOF/TOF™ from 19th –21st May, 2008 in Bremen, Germany, supported by School of Biological Sciences, University of the Punjab, Lahore and Rays Technologies.
6. Basic training course of MALDI-TOF (Voyager) organized in School of Biological Sciences by ABI Biosystems conducted by Alek Doley (Application engineer of ABI Biosystems) in Jan 2007.

ADMINISTRATIVE/ADVISORY DUTIES

Administrative:

1. In Charge Core Mass Spectrometric and purification HPLC/ FPLC purification laboratory
2. Radioactive laboratory officer
3. Member of SBS departmental self-assessment committee

Advisory:

1. Member of the Board of Faculty of Life Sciences:
2. Reviewed papers as an international reviewer for various international journals; Rapid communication in mass spectrometry, Pakistan Journal of Zoology, Biomedical Chromatography
3. Member of departmental doctoral programme committee
4. Member of departmental technical purchase committee
- 4 Member of departmental library committee
5. Member of the departmental loan committee
6. Assistant superintendent of SBS-girls hostel for the period May 2015 – May 2016.

TEACHING EXPERIENCE

I am also involved in teaching various Ph. D. and M.Phil. in my parent department SBS, whereas in Punjab University undergraduate department I have served as a visiting faculty member since August 2017, and taught biochemistry course (theory and practical 3+1 credit hour course) in BS honours chemistry. I am also fully engaged in conducting admission and comprehensive examinations in my parent department.

- **Ph.d. courses:**

1. Protein Structure module course-605 (semester II)- 2 credit hour
2. Analytical techniques Course 606: Mass Spectrometry (semester I: 2 credit hour)

- **M. Phil. courses:** I am a course coordinator for the following M.Phil courses:

1. Protein Chemistry and Enzymology Lab (course 509; semester I), 3 credit hour
2. Analytical and mechanistic enzymology (course 508; semester II), 2 credit hour
3. Biochemistry II (Metabolism) (course 502; sharing with Prof Akhtar FRS; semester II); 3 credit hour

- **Designed Ph.D. Enzymology syllabus for King Edward Medical University**

Course Title: BMS_KEMU 506 Enzymology (2.5 credit hours).

Classes were taken at SBS training laboratory. The course was conducted in November 2016 in

SBS in collaboration with Dr. Tania Shakoori (Assistant Professor, K.E. Medical College).

- **GRE examination preparation experience**

I am fully involved in the preparing the students for GRE examination and served as an assistant superintendent with Prof Naeem Rashid (senior superintendent) in conducting GRE exam in School of Biological Sciences, since, 2012.

I try my level best that my teaching methodology is interactive and students are fully involved during their course. The aim of my teaching is to develop an understanding of the subject being taught so that they can develop the ability and skill to solve the GRE based questions.

WORKSHOPS

- Organizer and an instructor in National Workshop on Production and Purification of Recombinant proteins (11th – 16th November, 2019), School of Biological Sciences, University of the Punjab, Lahore.
- Attended International Workshop on Radiation Biotechnology Applied Radioisotope (21st – 23rd October, 2019) at Pakistan Institute of Engineering and Applied Sciences (PIEAS), 45650, Islamabad, Pakistan
- Member of advisory committee for workshop conducted on National Workshop on Recombinant DNA technology 8th – 13th April 2019, held at School of Biological Sciences, University of the Punjab, Lahore.
- Organizer and an instructor in National Workshop on Production and Purification of Recombinant proteins (12th – 17th November, 2018), School of Biological Sciences, University of the Punjab, Lahore.
- Member of advisory committee for workshop conducted on National Workshop on Recombinant DNA technology 2nd – 7th April 2018, held at School of Biological Sciences, University of the Punjab, Lahore.

- Organizer and an instructor in National Workshop on Recombinant Protein Production & Purification (6th – 11th November, 2017), School of Biological Sciences, University of the Punjab, Lahore.
- Workshop on “Patent Filing” arranged by ORIC, University of the Punjab, Lahore, 17th – 18th May, 2017.
- Member of advisory committee for workshop conducted on National Workshop on Recombinant DNA technology 3rd – 8th April 2017, held at School of Biological Sciences, University of the Punjab, Lahore.
- Member of advisory committee for workshop conducted on 2nd National Workshop on Recombinant DNA technology 25th – 30th April 2016, held at School of Biological Sciences, University of the Punjab, Lahore.
- Member of advisory and organizing committee for workshop conducted on First National Workshop on Recombinant DNA technology 22nd – 29th April, 2013, held at School of Biological Sciences, University of the Punjab, Lahore.
- **Invited speaker**

Sr. No.	Description
1	As a National invited speaker to give lecture on “Rapid identification of microorganism by MALDI biotyping” , on 16 th Annual conference of Medical Microbiology and Infectious diseases society of Pakistan (MMIDSP) at Sindh Institute of Urology and transplantation Karachi, Pakistan (22–23 February, 2019)
2.	As a Guest Mass Spectrometrists Speaker to give lecture on “Bottom-up proteomics in the characterization of proteins: A journey from MS to MS MS” at 2 nd National training workshop on Chromatography & Mass Spectrometry” held in National Institute for Biotechnology and Genetic Engineering (NIBGE), Faisalabad (28 th October – 1 st November, 2013).
3.	As a Guest Mass Spectrometrists Speaker to give lecture on “Characterization of proteins by MALDI-TOF and ESI; Challenges and prospects” at 1 st National training workshop on Chromatography & Mass Spectrometry” held in National Institute for Biotechnology and Genetic Engineering (NIBGE), Faisalabad (April 02 – 06, 2012).

CONFERENCE/SEMINAR

- **Oral presentation in International Conference Punjab University ICPU, (6th – 8th November, 2019), on First Studies on the Rapid identification of Microorganisms by MALDI Biotyping in Pakistan.**
- **Participated in the following poster presentations in International Conference Punjab University ICPU, (6th – 8th November, 2019):**

1. Optimization of *in vitro* fibril formation of insulin derivatives. Ajmal, S., **Gardner, Q.A.**, Williamson, P.T., Akhtar, M.
 2. Microbiome profiling of Gilgit Baltistan by MALDI biotyping. Bukhari, S.S., **Gardner, Q. A.**, Akhtar, M.
 3. Comparative studies on the characterization of full-length and truncated bubaline serum amyloid A-1 derivatives. Arshad, H., Yaqoob, C., Hassan, N., **Gardner, Q.A.**, Akhtar, M.
 4. Effect of signal peptide on the expression and refolding of recombinant insulin precursors. Hassan, N., **Gardner, Q. A.**, Akhtar, M.
 5. Genetic engineering of human cytochrome b5-proinsulin chimera for the enhancement of proinsulin expression in *Escherichia coli*. Nasar, S., Hassan, N., **Gardner, Q. A.**, Akhtar, M.
 6. Production of insulin and proinsulin related antibodies and their cross-reactivity towards proinsulin derivatives. Munir, S., Hassan, N., **Gardner, Q. A.**, Akhtar, M.
 7. Mechanistic studies on *Pyrobaculum calidifontis* porphobioloingen syntahse. Azim, N., **Gardner, Q. A.**, Rashid, N., Akhtar, M.
 8. N-terminal stabilisation of recombinant human interferon alpha has a role in its activity enhancement. Ahsan, F., **Gardner, Q. A.**, Rashid, N., Towers, G., Akhtar, M.
- Presented SBS research activities in Meeting on state of Medical Research and NUMS Research agenda at Planning Commission, Ministry of Planning, Development and Reform, Pakistan Secretariat, Islamabad , on 3-5-18
 - **Participated CCPN 2015 Conference, University of Derby, Buxton, United Kingdom, 20-22 July 2015**
 - Active participation in the Conference organized by **The Pakistan Society of Nuclear Medicine, 2002 International Nuclear Medicine Conference Lahore** (April 3-4, 2002).
 - Active participation and organization of 7th international conference of the Pakistan Society for Biochemistry and Molecular Biology "**Trends in Biochemistry and Molecular Biology**" held in Institute of Biochemistry and Biotechnology on April 2–5, 2003
 - Participation as an active member of Organizing Committee of 18th Federation of Asian and Oceanian Biochemists and Molecular Biologists (FAOBMB) Symposium being held at Lahore on 20–23 November, 2005.

SYMPOSIA

- Contributed as an active member of organizing committee of an international symposium on "**Nanochemistry of Enzymes**" held in School of Biological Sciences, University of the Punjab, Lahore on September 20–21, 2006.
- Symposium on "**Biomarker Measurements in Complex Matrices**" organized by Pakistan Society for Biochemistry and Molecular Biology at School of Biological Sciences, University of the Punjab, Lahore on 25–26 April, 2007.
- Contributed as an active member of organizing committee of an international symposium on "**Role of Glycoproteins in Health and Diseases**" held in School of Biological Sciences on May 27–29, 2008.
- Contributed as an active member in symposium on "**Working with Proteins in Post-Genomic Era**" held in School of Biological Sciences on **January 06, 2010**.
