

FOREWORD

We are proud of the fact that University of the Punjab, the oldest and the largest University of Pakistan, continues to impart quality education to deserving persons from all areas of Pakistan. The University has thirteen Faculties with 73 Departments, Centres, Institutes and Constituent Colleges, where more than over forty six thousand students are studying in various disciplines.

The University of Punjab has five campuses; two main campuses in Lahore and one each in Gujranwala, Jhelum and Khanspur (Summer Campus) near Ayubia. The old premises, Allama Iqbal Campus, depicts the historical grandeur of the University, while the Quaid-e-Azam Campus, presents modern architecture, lush green lawns, specious landscape and clean environment. The beautiful canal flowing through this campus adds to the calmness and serenity of the surroundings. In addition, the University has **654** affiliated colleges spread over a large part of Punjab and Northern Areas which cater for the educational needs of nearly seventy million people. The University is responsible for providing curricula, conducting examinations and awarding degrees to the students of these Colleges.

During the last few years, the University has gone through a number of institutional reforms aimed at quality assurance in teaching and research. A number of newly emerging disciplines have been added to make the University education relevant to the needs of the society. Similarly, to cater for the needs of the Faculty and the students, over **7312** computers have been installed in the University and the number is continuously increasing at a rapid pace. In addition to it **42213** Lap Tops have been distributed among the University students by the Punjab Government. A local Area Network service is also available for access to the new knowledge in global village environment.

The University of the Punjab has highly qualified, experienced and dedicated faculty, which is imparting quality education and conducting meaningful research in scientific, social, religious and professional fields. The faculty also provides valuable guidance to scholars pursuing research in higher education.

A unique feature of the University is its adherence to our ideological and cultural values while maintaining a progressive professional posture. This sound amalgamation of tradition and modernity facilitates the smooth induction of students, coming from variety of cultural backgrounds, into the academic life of the University. It is a pleasure to provide them opportunities to get higher education through intellectual, moral and academic training which enable them to face the challenges of modern civilization. Accordingly, the University focuses on the overall personality development of the students through curricular, co-curricular and sports activities.

The University has a strong commitment to provide affordable education to deserving students through highly subsidized fee structure and financial support. A large number of needy and merit scholarships are available to the deserving students which provide substantial relief to them. The University also caters for the residential needs of the students coming from other areas, for which it maintains seventeen hostels for male and ten for the female students.

The admission process is an eventful and lively activity of the University. Every year a large number of fresh graduates eagerly await entry into University and take interest to secure it. The admissions to various Departments, Institutes and Constituent Colleges are made on the basis of merit determined according to the prescribed admission criteria through fully transparent and predictable processes.

I welcome the new entrants to this old seat of learning. I am sure they will have a comfortable stay at their alma mater and will make every effort to benefit from the excellent faculty and adequate facilities of the University. May God bless them with more knowledge!

(Prof. Dr. Niaz Ahmad Akhtar)
Vice-Chancellor
University of the Punjab

PREFACE

We look forward to the new academic year and to welcome the new entrants to this prestigious and oldest University of the country. Entering in to university level educations marks a new phase in your life, which is not only associated with more independence but also demands more responsibility in the selection of your priorities and actions. Our University has produced numerous graduates in the past who have not only served in highly important positions in the national and international institutions, but have earned fame because of the contributions they made.

We all look forward to our youth to not only upkeep the university traditions but to work with dedication for improvement and excellence, which is the hallmark of an alive and vibrant society.

The University has progressed over the years, more particularly during the last decade when many new degree programs were initiated, which was associated with expansion in the physical infrastructure on the campus. The University academic programs are divided under thirteen faculties, which embody several colleges, schools, institutes, departments and centers. These institutions offer degree programs in a large number of disciplines ranging from the oriental studies to the areas like biotechnology and nanotechnology. First-rate facilities including laboratories equipped with state-of-the-art equipment, ready access to internet facility for all, computer laboratories, etc., are available not only for producing well-qualified graduates, but also undertaking high quality research.

The choice of discipline for further studies must be made not only according to the market demands but also personal interests and aptitude should play an important role in this process. It may not be possible for many students to get admission to a degree program of their first choice as only a limited number of seats are available for each program and the admissions are decided strictly on merit. However, it must be remembered that with dedication, hard work and perseverance, it is possible to achieve excellence and earn honors and laurels in any field of study you enter into.

Admissions to all the degree programs are made in accordance with the University Admission Regulations, which are publicly announced prior to the admission process. These regulations along with the admission forms, and other information like the details of the courses, etc., are available from the relevant University departments and university book store at a nominal price. Students are advised to consult these regulations carefully and obtain other necessary information while filing application for admission. All the University departments shall provide help to facilitate the candidates in their admission process.
