

Programme	BS Political Science	Course Code	PS-401	Credit Hours	3
Course Title	Foundations of International Relations: A Historical Perspective				
Course Introduction					
The course deals with the study of important events in International Relations and provides a survey on different empirical perspectives of International Relations. The main objective is to integrate theory and policy in the context of specific historical cases in international politics.					
Learning Outcomes					
On the completion of the course, the students will:					
<ul style="list-style-type: none">○ Analyze the historical development of international relations from the Treaty of Westphalia (1648) to the present day, identifying key events, treaties, and shifts in global power dynamics.○ Examine significant international conflicts, including both World Wars, the Cold War, and regional conflicts, and understand their causes, consequences, and resolutions.○ Assess the impact of colonialism and decolonization on international relations, including the emergence of new states and the shift in global power structures.○ Develop advanced research and analytical skills by engaging with primary and secondary historical sources, and effectively communicate findings through written and oral presentations.					
Reflect on the ethical dimensions of historical events and decisions in international relations, fostering a deeper understanding of their long-term impacts.					
These learning outcomes aim to provide students with a comprehensive understanding of the historical foundations of international relations, preparing them for advanced study or careers in the field.
