DEPARTMENT OF PLANT PATHOLOGY FACULTY OF AGRICULTURE University of the Punish Labore

Programme	BSc. (Hons.) Agriculture (Plant Pathology) 4 Year program	Course Code	PP-304	Credit Hours	3 (2+1)
Course Title	DISEASES OF FIELD CROPS				

Course Introduction

To acquaint students with basic concepts and identification of plant pathogens, the focus is on understanding the fundamental concepts and identification of various plant pathogens. Students learn about different types of pathogens such as fungi, bacteria, viruses, and nematodes, exploring their characteristics, to identify and manage plant pathogens

Learning Outcomes

By the completion of this course students will be able to:

- 1. Understand the disease-causing factors and their impact on plant health
- 2. Manage the diseases and pathogens of winter field crops
- 3. Know the diseases and pathogens of summer field crops
- 4. Implement plant disease management strategies and their role in SPS

- 1.1. Books

1.2. Journal Articles/ Reports

- 1. It is preferable to use latest available editions of books. Mention the publisher & year of publication.
- **2.** The References/ bibliography may be in accordance with the typing manual of the concerned faculty/subject. Preferably follow APA 7th Edition publication manual.

Teaching Learning Strategies

- 1. White board and markers
- 2. Slide projector or multimedia
- 3. Overhead projector
- 4. Photocopy machine or photocopying facilities
- 5. Reference books
- 6. Journals
- 7. Internet (web sited literature)
- **8.** Field Tours

Assignments: Types and Number with Calendar

- 1. Important Viral, bacterial and nematode diseases prevalent in the campus.
- 2. Economically important fungal diseases in the campus

Assessment

Sr. No.	Elements	Weightage	Details
1.	Midterm Assessment	35%	Written Assessment at the mid-point of the semester.
2.	Formative Assessment	25%	Continuous assessment includes: Classroom participation, assignments, presentations, viva voce, attitude and behavior, hands-on-activities, short tests, projects, practical, reflections, readings, quizzes etc.
3.	Final Assessment	40%	Written Examination at the end of the semester. It is mostly in the form of a test, but owing to the nature of the course the teacher may assess their students based on term paper, research proposal development, field work and report writing etc.
