

Programme	BS Political Science	Course Code	PS-101	Credit Hours	3
Course Title	Political Science: History and Foundational Philosophies				
Course Introduction					
<p>This undergraduate course provides a comprehensive introduction to the history and foundational philosophies of political science. It explores the evolution of political thought from ancient to modern times, analyzing the key philosophers, ideologies, and movements that have shaped political science as a discipline. Students will engage with the works of influential thinkers, examining how their ideas have influenced contemporary political systems and theories. The course aims to develop a critical understanding of political concepts such as justice, power, authority, and the state, and how these have been interpreted and reinterpreted over time.</p>					
Learning Outcomes					
<p>On the completion of the course, the students will:</p> <p>Students will be able to trace the historical development of political thought, identifying key periods, thinkers, and ideologies that have shaped the discipline of political science.</p> <p>Students will demonstrate the ability to critically analyze and compare foundational political philosophies, understanding their core principles and implications for modern political systems and theories.</p> <p>Students will apply foundational political concepts such as justice, power, and authority to contemporary political issues, demonstrating an ability to engage with and critique current political debates using historical and philosophical frameworks.</p>
