Programme	BS	Course Code	AHPH-100	Credit Hours	2	Prerequisite: None
General Education Cluster: Arts & Humanities	Course Title	Fundamentals of Philosophy				
Course Introduction						
<p>Philosophy explores most fundamental questions of human life and the universe. Philosophy addresses these questions through the human capacity to <i>reason</i>: philosophical answers are based on logical arguments, which analyze and seek to justify beliefs. It helps to look critically at your own and other's ideas. Thus, Philosophy is a kind of investigation, in which you discover what you think, and then reflect on whether your opinions are really worth holding.</p>						
Learning Outcomes						
<p>On the completion of the course, the students will be able:</p> <ol style="list-style-type: none"> 1. apply the theoretical concepts to academic and practical life. 2. analyze philosophical concepts that emerge in everyday contexts. 3. develop intellectual autonomy, analysis of different worldviews, scientific inquiry, and a commitment to employ analytical reasoning and intellectual integrity.
