Programme		BBA	Course Code	BBA-204	Credit Hours	3	
Course Ti	tle	Principles of Auditing					
Course Introduction							
This course provides a comprehensive introduction to auditing, covering its fundamentals, principles, and practices. Students will explore the nature and scope of auditing, internal control systems, auditing procedures, and reporting requirements. The course also delves into specialized audits for various industries and distinguishes between audit and investigation. By the end of this course, students will possess a solid understanding of auditing concepts, enabling them to apply their knowledge in real-world scenarios and prepare for careers in auditing and related fields.
