| Pakistan Studies is a subject that aims at enhancing the students' knowledge of the historical perspective, government, politics, and ideological background of Pakistan. The course is therefore designed to promote and understand the history and ideology of Pakistan, the struggle of Muslims for the emergence of an ideological state and the efforts for achieving the goals of Islamisation. It will enhance the understanding of physical and human aspects of Pakistan's geography, develop awareness regarding socio-political aspects of civic life and create awareness in relation to Pakistan's international relations. |                                                                                                                                                                                                                                                                                                         |         |    |
