

<b>Programme</b>	<b>ADP Home Economics</b>	<b>Course Code</b>	<b>HEIE-205L</b>	<b>Credit Hours</b>	<b>1(0+1)</b>
<b>Course Title</b>	<b>HOME MANAGEMENT AND HOUSING (LAB)</b>				
<b>Course Introduction</b>					
<p>This course introduces students to the principles of managing household resources and planning suitable living spaces. It focuses on budgeting, resource management, and understanding financial, environmental, and social factors that shape family life. Students will also explore sustainable housing solutions, furniture selection, and the use of household equipment. The knowledge gained will help prepare them for careers in education, community development, housing consultancy, and home resource management.</p>					
<b>Learning Outcomes</b>					
<p>By the end of this course, students will be able to:</p> <ol style="list-style-type: none"> <li>1. Understand financial, environmental, and social factors affecting home management.</li> <li>2. Apply budgeting and resource management strategies for efficient household operations.</li> <li>3. Evaluate sustainable housing solutions for diverse family needs.</li> </ol>
