

# Course Content and Objective

## Semester I

**Course: Basic Design-I**

**BFAT-101**

**Credit hr: 6 P**

### **Objective:**

The course aims to introduce the design field to the students at an elementary level so that they understand the basic meaning and execution of design. They are taught design as in generalized form further correlating it with the textile field.

### **Content:**

The course is an initiative course for the knowhow of the students about the basic design. The subject deals with the line, dot, shape, form and space compositions. The students are taught color composition with the space division and management. The student is introduced to the basic design compositions and color balance.
