

SEMINARS ON

Combustion Stoichiometry Considerations for Biomass and Coal Fuels and the Importance of Excess Air in Burner Thermal Efficiency

Thursday 1st March, 2012 Time :09:00 am

Options for Low CO₂ Emissions, Carbon Capture Alternatives with Emphasis on Industrial Gas Turbine Applications.

Friday 2nd March, 2012 Time :09:00 am

Venue:

**Institute of Chemical Engineering & Technology (ICET),
University of the Punjab (PU), Lahore.**

Resource Person:

Prof. Gordon.E. Andrews
Professor of Combustion Engineering

Energy Research Institute (ERI)

School of Process Environment and Materials Engineering

The University of Leeds, Leeds, UK

Chartered Engineer (CEng) (32 years)

Fellow of the Energy Institute (FEI) (27 years)

Member of the Society of Automotive Engineers (MSAE) (27 years)

Member of the American Society of Mechanical Engineering (ASME) (32 years)

Over 400 papers published including > 100 SAE papers and > 100 ASME GT papers.

Organized by:

**Institute of Chemical Engineering
& Technology (ICET),
University of the Punjab (PU),
Lahore.**

Office no: (+) 92-42-99230065

Cell No: 0092-0304-4246275, 0092-322-8012927
