Prof. Dr. Khalid Mahmood
Vice-Chancellor, University of the Punjab

Vice Chancellor's Message

This booklet, "Fact Book 2020-23" of Remote Sensing, GIS and Climatic Research Lab (RSGCRL), is a reflection of academic and research achievements of the lab, accomplished during the last three years from its establishment at University of the Punjab, Lahore. Under the ambit of Higher Education Commission (HEC) of Pakistan, National Center of GIS and Space Applications (NCGSA) has been established with seven constituent national labs in the country. RSGCRL is one of these seven labs to contribute towards developing capabilities in the emerging technologies. I hope that this Booklet will be helpful for researchers, professionals, Remote Sensing, GIS and Climate Change analysts and data users in and beyond Pakistan, seeking information about RSGCRL.

Academically professional and competent research team at RSGCRL has shown commitment and dedication to this national duty. This team of academicians have successfully achieved first year targets (203 achievements against 17 quantified targets), second year targets (568 achievements against 35 quantified targets), and for the entire period of three years of the project (2860 achievements against 81 quantified targets) showing a tremendous potential and devotion to this lab. RSGCRL has also significantly contributed to the institutional capacity building and professional development in the fields of RS&GIS and Climate Change by offering internships, workshops, theses research work, seminars and collaborations under different domains of the lab.

Remote Sensing, GIS and Climatic Research Lab
(National Center of GIS and Space Applications)
University of the Punjab, Lahore, Pakistan

FACT BOOK 2020-23

The establishment of the state-of-the-art RSGCR Lab at Punjab University in Pakistan, with latest equipment and professional research team of experts, analysts, and scholars will futuristically be a great asset for developing RS&GIS and space applications and preparedness to manage, adapt and mitigate climate change and its risks concerning to Pakistan and to the region.

I commend the achievements and accomplishments of RSGCRL team mentioned in this booklet.

Dr. Zia Ul Haq
Principal Investigator/Scientific Director, RSGCRL

Director's Message

It is a great pleasure and honour for me to introduce RSGCRL, its research team, and present the summary of activities performed and accomplishments during the last three years or so.

Presently, RSGCRL team is focusing on four major areas of research, development and capacity building:

Developing Remote Sensing and GIS applications, models, tools, technologies, and scientific approaches to support sustainable developments in the fields of food security, agriculture, and environment; developing assessment & management strategies for disasters, hazards, risks assessment; air and water pollution assessment and solutions; efficient management of natural resources and urban areas; and support to a pathway towards a blue economy.

Improving the scientific understanding of physical bases, current state & future scenarios of the climate in Pakistan, including information relevant to both, regional dynamics and corresponding sectors, the role of human influence, and helping in limiting human-induced climate change.

Studying socioeconomic footprints of climate change/air pollution/environmental policies & laws on vulnerable communities of the society having less technological literacy, limited adoptability and

non-availability of alternate-solutions leading to increase in socioeconomic disparities, poverty and unemployment; preparing guidelines & providing feedback to policy makers to adopt pro-poor approach in implementation of climate change/air pollution/environmental policies & laws in Pakistan.

Developing institutional and professional capacity in RS&GIS and climate change domains through stipend based theses research work, publications, paid internships, free workshops, seminars, and multilayered collaborations. In this regard two major programmes have been launched, “Institutional Capacity Building and Professional Development Programme” and “Faculty Development Programme in Remote Sensing, GIS and Climate Change” to improve the skills for informed and efficient decision-making processes and to produce qualified workforce. Also, a “National Campaign on Climate Change” has been launched to create awareness in masses about RS&GIS applications, and issues & responsibilities regarding the climate change.

I acknowledge the support from resource persons, researchers & students and participants who have greatly contributed to RSGCRL achievements. The generous financial support from the Vice Chancellor, and assistance from Treasurer, Audit, ORIC, P&D staff of University of the Punjab. The cooperation from NCGSA Central Directorate, and HEC & Planning Commission officials is greatly acknowledged which enabled the smooth establishment and operation of the lab.

May Allah grant us the ability to serve the humanity! Ameen.

1 About RSGCRL

RSGCRL has been established at University of the Punjab, Lahore as an affiliated National Lab with National Center of GIS and Space Applications (NCGSA) under Government of Pakistan's Public Sector Development Programme (PSDP) sponsored by Higher Education Commission (HEC) of Pakistan. The RSGCRL aims to promote and facilitate education, research activities and collaborations to study and develop GIS and Space Applications with particular emphases on climate change and sustainable development in Pakistan.

Pakistan is amongst the most vulnerable countries facing climate change risks with very low technical, financial and professional capacity to manage, adapt and mitigate its adverse impacts. Climate change aggravates the social inequalities, and intensifies social factors leading to displacements, conflicts, instability, and changes in migration patterns.

The development of GIS and Space Applications in this domain is not only something that can be shared with international organizations but it can also help in improving living standards of Pakistan through sustainable solutions for healthy environment, better urban planning, saving of natural resources, etc. The availability of such a lab with latest equipment and competent team of experts and analysts can be of great advantage to manage, adapt and mitigate climate change and allied problems.

2 RSGCRL Core Team

Dr. Zia Ul Haq

Principal Investigator/Director
director.rsgcrl@pu.edu.pk
PhD in Space Science
(HEC Approved Supervisor)

Research Interests: Remote Sensing of Atmosphere, Sustainable Development, Atmospheric Reactive and Greenhouse Gases, Air Pollution Impact linkage with Climate Change, Socioeconomics of Climate Change, Climate Projections and Adaptation

Dr. Syeda Adila Batool

Co-Principal Investigator
aadila.spssc@pu.edu.pk
PhD in Environmental Sciences
(HEC Approved Supervisor)

Research Interests: Sustainable Development, Urban Climate, Climate Projections and Adaptation, Solid Waste Management, Life Cycle Assessment, Greenhouse Gases Emissions and Impact on Ecology, Climate and Human Health

Dr. Khalid Mahmood

Co-Principal Investigator
khalid.spssc@pu.edu.pk
PhD in Space Science
(HEC Approved Supervisor)

Research Interests: Hazard Assessment and Spatial Patterns Identification of Environmental Variables, Landuse/Landcover (LULC) Monitoring, Groundwater & Surface Water Assessment and Management, Municipal Solid Waste, Vegetation Monitoring, Rainwater Harvesting, Geospatial Intelligence, Climate Change Assessment for Sustainable Development

Dr. Salman Tariq

Co-Principal Investigator
salman.spsc@pu.edu.pk
PhD in Space Science
(HEC Approved Supervisor)

Research Interests: Remote Sensing of Atmosphere and Air Pollution, Climate Modelling, Sustainable Development, Transboundary Aerosols, Radiative Forcing of Aerosols, Coastal Environments, Hazards and Extremes, Climate Tourism and Recreation, Solar-Terrestrial Atmosphere Coupling

Dr. Shahid Parvez

Team Lead
shahid.spsc@pu.edu.pk
PhD in Space Science

Research Interests: Remote Sensing of Landuse/Landcover (LULC) Changes, Microwave Remote Sensing, Photogrammetry, SAR & LiDAR Data Applications, Climate Change-Glacier-Water Nexus, Sustainable Development

Dr. Asim Daud Rana

Team Lead
asim.spsc@pu.edu.pk
PhD in Space Science

Research Interests: Remote Sensing of Landuse/Landcover (LULC), Climate Change, Sustainable Development, Atmospheric Remote Sensing, Phenology, Urban Green Spaces, Coastal Environments

3 Areas of Research and Development

The research and development activities at RSGCRL are mainly focused on the following major areas and serious challenges faced by Pakistan by using latest tools, technologies, and scientific approaches related to RS&GIS and climate change:

- i Climatic Studies**
Climate Projections and Adaptation, Climate Change and Sustainable Development, Climate Change Impacts on Ecology and Human Health
- ii Food Security, Agriculture and Biodiversity**
Adaptation & Mitigation of Climate Change for Sustainable Food Security & Production, Agriculture, crop patterns
- iii Disasters and Calamities Management**
Disasters, Hazards and Risks Assessment and Management, Early Warning Systems, Floods, Earthquakes, Droughts, Heatwaves, Fires, Transboundary Air Pollution
- iv Environment, Air Pollution and Health**
Air Quality, Climate Change and Human Health, Environmental Bio-Thermal Hazards, Sustainable Environment
- v Landuse/Landcover**
Landuse/Landcover Mapping, Deforestation, Desertification, Land Degradation
- vi Water and Ocean Studies**
Coastal and Marine Pollution, Freshwater Resources and Ecosystems, Ground and Surface Water Availability and Quality, Water Pollution, Monitoring of Water Resources, Glaciers Melting, Climate Change Impact on Hydrological Cycle, Ocean Ecology, Ocean Warming
- vii Urban Studies**
Urban Green Space, Urban Heat Island, Solid Waste Management, Air Pollution, Urban Climate, e-Waste, Life Cycle Assessment, Sustainable Consumption and Production

xiii Socioeconomics and Resource Management

Socioeconomic Impacts of Climate Change, Economic Growth and Air Quality, Econometric Modeling of Climate Change, RS&GIS Applications in Economic and Management Sciences, Sustainable Development, Blue Economy, Economic Sectors and Services, Cost Effective Solutions and Efficient Management of Resources, RS&GIS for Knowledge Economy

ix Institutional Development, Capacity Building and Public Awareness

Institutional Development, Capacity Building, Woman Participation, Knowledge Sharing and Skills Development, Public Awareness, Lifelong Learning in Climate Studies, Quality Education and Research Skills in RS&GIS and Climate Change

4 RSGCRL and PV-2025, PSV2047, MDGs and SDGs

The emerging demand of GIS and Space Applications for climate change studies for the socio-economic development of Pakistan along with Government of Pakistan Vision 2025, Space Vision 2047 of National Space Agency of Pakistan, Millennium Development Goals (MDGs) and achievement of Sustainable Development Goals (SDGs) impelled the Higher Education Commission of Pakistan (HEC) to establish Remote Sensing, GIS and Climatic Research Lab (RSGCRL) at University of the Punjab, Lahore, Pakistan. RSGCRL is linked to these goals as described below:

i Pakistan Vision 2025

People First (Developing Social and Human Capital and Empowering Women), Growth (Sustained, Indigenous, and Inclusive Growth), Security (Energy, Water, and Food Security), Entrepreneurship (Private Sector and Entrepreneurship-Led Growth), Knowledge Economy (Developing a Competitive Knowledge Economy Through Value Addition), Connectivity (Modernizing Transport Infrastructure and Regional Connectivity).

ii Millennium Development Goals (MDGs)

Eradicate Extreme Poverty & Hunger (MDG-1), Empower Women (MDG-3), Reduce Child Mortality (MDG-4), Improve Maternal Health (MDG-5), Combat HIV/AIDS, Malaria and Other Diseases (MDG-6), Ensure Environmental Sustainability (MDG-7), Develop A Global Partnership for Development (MDG-8).

iii Sustainable Development Goals (SDGs)

No Poverty (SDG-1), Zero Hunger (SDG-2), Good Health and Well-Being (SDG-3), Quality Education (SDG-4), Gender Equality (SDG-5), Clean Water and Sanitation (SDG-6), Affordable and Clean Energy (SDG-7), Decent Work and Economic Growth (SDG-8), Reduced Inequalities (SDG-10), Sustainable Cities and Communities (SDG-11), Responsible Consumption and Production (SDG-12), Climate Action (SDG-13), Life Below Water (SDG-14), Life on Land (SDG-15), Partnerships to Achieve the Goal (SDG-17).

Lahore Urban Ecology and Modernization: A GIS and RS Perspective	Scientific Contribution	Urban Management	Climate Change	Capacity Building
Estimating environmental efficiency of the selected Asian countries: does convergence exist?	Impact Factor Journal Publication	Modeling	Environmental Science and Pollution Research	Environmental Studies
Defining the roles of socio-economic factors and bureaucratic quality to minimize the impacts of fossil fuels consumption on CO ₂ emissions in G-20 countries	Impact Factor Journal Publication	Policy Implications	Environmental Science and Pollution Research	Environment & Socioeconomics
Maritime Aerosol Optical and Microphysical properties over Arabian Sea	Scientific Contribution	Marine Aerosols	Earth Observation	Capacity Building
GIS and Space Applications in Geosciences	Seminar	Natural Resource Management	GIS Applications	Institutional Capacity Building
Spatio-Temporal Distribution of Aerosols and Carbon Monoxide over Pakistan using Remote Sensing	Scientific Contribution	RS&GIS Applications	Climate Change	Capacity Building
Sustainable Development and the role of Socio-economic Factors	Seminar	Sustainability	Development Economics	Institutional Capacity Building
A study of variability of Aerosols index and SO ₂ over Pakistan using remote sensing	Scientific Contribution	Atmospheric Dynamics	Air Quality Monitoring	Capacity Building
Mapping Archaeological Heritage in South Asia (MAHSA)	Seminar	Cultural Heritage	Heritage Management	Interdisciplinary Collaboration
A study on the modification in aerosol loading over Karachi using remote sensing	Scientific Contribution	RS&GIS Applications	Air Pollution Modeling	Capacity Building
Space Weather: It's impacts on Technology	Seminar	RS&GIS Applications	Institutional Capacity Building	
Variations in the aerosol index and its relationship with meteorological parameters over Pakistan using remote sensing	Impact Factor Journal Publication	RS&GIS Applications	Environmental Science and Pollution Research	Air Pollution Climatology
Satellite Based Indices/Models to Monitor Surface Water Reservoirs	Seminar	Hydrology	Water Pollution Impact	Sustainable Develop.
Satellite remote sensing of Formaldehyde by using Sentinel 5P data over South Asia	Scientific Contribution	Satellite & GIS Applications	Urban Air Pollution	Capacity Building
Remote sensing of air pollution due to forest fires and dust storm over Balochistan (Pakistan)	Impact Factor Journal Publication	RS&GIS Applications	Atmospheric Pollution Research	Hazards Assessment

10 Activities completed under “Building a Responsible and Responsive Society” Programme (cont'd.)

(Scientific Contribution, Institutional Capacity Building, Professional Development, Public Awareness)

Remote Sensing based analysis of soil types distribution in Pakitsan	Scientific Contribution	Soil Science and Pedology	Land Use Planning	Capacity Building
A study to assess hospital waste management in Sheikhpura by using GIS	Scientific Contribution	Healthcare Management	Spatial Analysis	Capacity Building
Monitoring changes and impacts of urban green spaces in Lahore using RS & GIS	Scientific Contribution	Urban Ecology	Environmental Planning	Capacity Building
Geospatial analytics for multi-decadal morphodynamics along Gwadar coastal zone	Impact Factor Journal Publication	RS&GIS Applications	Air Pollution & Oceanic Ecology	Journal of Coastal Conservation
Applications of Satellite Remote Sensing in Monitoring Aerosols, Enhanced Vegetation Index and Atmospheric Dynamics	Seminar	Ecological Monitoring	Climate Change	Responsibilities & Response
A geospatial assessment of hospital waste management in public and private sector; A case study	Scientific Contribution	Environmental Health and Epidemiology	Capacity Building	
Evaluating the role of renewable energy and technology innovations in lowering CO ₂ emission: a wavelet coherence approach	Impact Factor Journal Publication	Modeling	Socioeconomics & Climate Change	Environmental Science and Pollution Research
Role of Land Use / Land Cover as Determinant of Local Thermal Print Using Google Earth Engine	Seminar	Public Awareness	Microclimate Analysis	Societal Preparedness
Can Geomagnetic storms affect stratospheric O ₃ and NO ₂ in the South Atlantic Anomaly Zone?	Scientific Contribution	Geomagnetism	Aeronomy	Capacity Building
Defining the role of renewable energy, economic growth, globalization, energy consumption, and population growth on PM _{2.5} concentration: evidence from South Asian countries	Impact Factor Journal Publication	Modeling	Socioeconomics & Air Quality	Environmental Science and Pollution Research
Study of Methane climatology over Pakistan using RS and GIS techniques	Scientific Contribution	Solution Development	Environmental Modeling	Capacity Building
Object And Pixel Based Landuse Landcover Mapping and comparison, Based On Medium And High Resolution Satellite Imagery A Case Study of Deh Akro-li And Chotiari Wetland Complex, Sindh, Pakistan	Impact Factor Journal Publication	RS Techniques	Landuse & Landcover	Annals of Forest Research

10 Activities completed under “Building a Responsible and Responsive Society” Programme *(cont'd.)*

(Scientific Contribution, Institutional Capacity Building, Professional Development, Public Awareness)

Effect of Human capital, Natural resource, urbanization, energy consumption on carbon emissions in the top ten emitter countries <i>Economic Research</i>	Impact Factor Journal Publication	Modeling	Socioeconomics of Climate Change	
Use of Wavelet Transformation in analysing Essential Climatic Variables	Seminar	Climate Data Analysis	Institutional Capacity Building	
The role of economic globalization in reducing CO ₂ emissions implications for sustainable development in South Asian countries <i>Environment, Development and Sustainability</i>	Impact Factor Journal Publication	RS&GIS Applications	Climatology & Urban Studies	
Geospatial induces as an alternative for environmental impact assessment of dumped waste <i>Acta Geophysica</i>	Impact Factor Journal Publication	RS&GIS Applications	Urban Hazards	
Application of advance Remote Sensing based classification techniques	Scientific Contribution	RS&GIS Applications	Resource Management	Capacity Building
Biomass mapping of Sindh and Balochistan using microwave remote sensing	Scientific Contribution	Agricultural Sciences	Forestry	Capacity Building
Summertime variability of aerosols and covariates over Saudi Arabia using remote sensing <i>Air Quality, Atmosphere & Health</i>	Impact Factor Journal Publication	RS&GIS Applications	Air Quality Assessment	
Assessment of Coastal Vulnerability to Climate Change Impacts in Pakistan by using Remote Sensing and GIS	Scientific Contribution	Coastal Studies	Oceanography	Capacity Building
Investigating the long-term trends in aerosol optical depth and its association with meteorological parameters and Enhanced Vegetation Index over Turkey <i>Environmental Science and Pollution Research</i>	Impact Factor Journal Publication	RS&GIS Applications	Air Pollution Climatology	
Small Satellite Technology: Discussing CubeSat Projects in SSTR lab and their Applications in Climate Change	Seminar	Climate Science	Environmental Monitoring	Capacity Building
Hot spot analysis and long term trends of absorbing aerosols measured at different locations in Pakistan	Scientific Contribution	Satellite & GIS Applications	Urban Air Pollution	Capacity Building
Remote sensing of aerosols due to biomass burning over Kanpur, Sao-Paulo, Ilorin and Canberra <i>Atmospheric Chemistry</i>	Impact Factor Journal Publication	RS&GIS Applications	Air Quality Assessment	

10 Activities completed under “Building a Responsible and Responsive Society” Programme *(cont’d.)*

(Scientific Contribution, Institutional Capacity Building, Professional Development, Public Awareness)

Analysis of Relationship between O ₃ and NO ₂ Lahore, Pakistan			
Scientific Contribution	Geospatial Analysis	Hazards Assessment	Capacity Building
Exploring the role of communication technologies, governance, and renewable energy for ecological footprints in G11 countries: implications for sustainable development			
Impact Factor Journal Publication	Modeling	Sustainability Socioeconomics & Climate Change	
Investigating the Spatiotemporal Distributions of NO ₂ , SO ₂ and Their Association with NDVI in Lahore (Pakistan) and Its Adjoining Region of Punjab (India)			
Scientific Contribution	Satellite Remote Sensing	Air Pollution	Capacity Building
Asymmetric impacts of natural resources on ecological footprints: exploring the role of economic growth, FDI and renewable energy in G-11 countries			
Impact Factor Journal Publication	Modeling	Resource Policy Socioeconomics & Climate Change	
Modeling Air Pollution, Socioeconomic and Climate Change Nexus in Pakistan using Remote Sensing and Geo-statistical Techniques			
Scientific Contribution	Remote Sensing Techniques	Simulation	Capacity Building
The carbon footprint of a public sector University before and during the COVID-19 lockdown			
Impact Factor Journal Publication	Climate Change	Global NEST Greenhouse Gases Emission Assessment	
Hydrometeorological trend analysis in Northern Pakistan using classical approaches and Recurrent Neural Network (RNN)			
Scientific Contribution	Data Science	Computational Statistics	Capacity Building
Economic policy uncertainty and CO ₂ emissions: a comparative analysis of developed and developing nations			
Impact Factor Journal Publication	Modeling	Environmental Science and Pollution Research Socioeconomics and Climate Change	
Lets interact with processes: A way out from scratch to product delivery			
Seminar	Product Development Lifecycle	Institutional Capacity Building	
Financial institutional and market deepening, and environmental quality nexus a case study in G-11 economies using CS-ARDL			
Impact Factor Journal Publication	Modeling	International Journal of Environmental and Public Health Socioeconomics and Climate Change	
Techno-economic optimization of PV system for hydrogen production and electric vehicle charging stations under five different climatic conditions in India			
Impact Factor Journal Publication	Climate Change	International Journal of Hydrogen Energy Alternative Energies	

10 Activities completed under “Building a Responsible and Responsive Society” Programme *(cont’d.)*

(Scientific Contribution, Institutional Capacity Building, Professional Development, Public Awareness)

Geospatial alternatives for quantification of bio-thermal influence zone in the vicinity of a solid waste dump	<i>Waste Management and Research</i>
<i>Impact Factor Journal Publication</i>	<i>Solutions Development</i>
	<i>Urban hazards</i>
Environmental Impact Studies of Deh Akro II Wetland Complex Using Remote Sensing and Geospatial Techniques, Sindh, Pakistan	
<i>Scientific Contribution</i>	<i>Environmental Impact Assessment</i>
	<i>Conservation and Wetland Ecology</i>
Spatial and temporal variations in PM _{2.5} and associated health risk assessment in Saudi Arabia using remote sensing	<i>Chemosphere</i>
<i>Impact Factor Journal Publication</i>	<i>Satellite & GIS Applications</i>
	<i>Air Quality And Health</i>
Multi-control spatial history of groundwater reservoirs in Pakistan using satellite-driven data	<i>Acta Geophysica</i>
<i>Impact Factor Journal Publication</i>	<i>RS&GIS Applications</i>
	<i>Groundwater Assessment</i>
Associating renewable energy, globalization, agriculture and ecological footprints implications for sustainable environments in South Asian	<i>International Journal of Environmental Research and Public Health</i>
<i>Impact Factor Journal Publication</i>	<i>Modeling</i>
	<i>Socioeconomics and Sustainability</i>
Does globalization cause greenhouse gas emissions in Pakistan? A promise to enlighten the value of environmental quality	<i>International Journal of Environmental Research and Public Health</i>
<i>Impact Factor Journal Publication</i>	<i>Modeling</i>
	<i>Socioeconomics & Climate Change</i>
Evaluating Landsat-8 and Sentinel-2 data consistency for high spatiotemporal inland and coastal water quality monitoring	<i>Remote Sensing</i>
<i>Impact Factor Journal Publication</i>	<i>RS&GIS Applications</i>
	<i>Water Quality Assessment</i>
Assessment of air quality during worst wildfires in Mugla and Antalya regions of Turkey	<i>Natural Hazards</i>
<i>Impact Factor Journal Publication</i>	<i>RS&GIS Applications</i>
	<i>Hazards Monitoring & Assessment</i>
Study of Atmospheric Nitrogen Dioxide Climatology over Punjab (Pakistan) using Satellite Data	
<i>Scientific Contribution</i>	<i>Satellite & GIS Applications</i>
	<i>Air Pollution</i>
	<i>Capacity Building</i>
Geospatial passives for dynamic vegetation monitoring around thermal power plants	<i>Environmental Science and Pollution Research</i>
<i>Impact Factor Journal Publication</i>	<i>RS&GIS Applications</i>
	<i>Environmental Hazards and Vegetation</i>
Bioinformatics in Climate Change and Environmental Studies: Challenges and Opportunities	
<i>Seminar</i>	<i>Public Awareness</i>
	<i>Computational Biology</i>
	<i>Institutional Capacity Building</i>

10 Activities completed under “Building a Responsible and Responsive Society” Programme *(cont'd.)*

(Scientific Contribution, Institutional Capacity Building, Professional Development, Public Awareness)

A geospatial assessment of bio-thermal influence around Çatalagzi power plant region			<i>Geocarto International</i>
<i>Impact Factor Journal Publication</i>	<i>RS&GIS Applications</i>	<i>Bio-Thermal Hazards</i>	
Applications of Machine Learning Algorithms for High-Dimensional Datasets			
<i>Seminar</i>	<i>Data Science</i>	<i>Computational Statistics</i>	<i>Institutional Capacity Building</i>
Comparative simulation of GIS based rainwater management solutions			<i>Water Resource Management</i>
<i>Impact Factor Journal Publication</i>	<i>RS&GIS Applications</i>	<i>Water Resource Management</i>	
Applications of Remote Sensing and GIS in Monitoring PM _{2.5} and Evaluation of Associated Health Risks			
<i>Seminar</i>	<i>Environmental Health and Epidemiology</i>	<i>Institutional Capacity Building</i>	
Characterizing air pollution and its association with emission sources in Lahore: a guide to adaptation action plans to control pollution and smog			<i>Applied Sciences</i>
<i>Impact Factor Journal Publication</i>	<i>Policy Recommendations</i>	<i>Air Quality Management</i>	
Air pollution trends measured from MODIS and TROPOMI: AOD and CO over Pakistan			<i>Journal of Atmospheric Chemistry</i>
<i>Impact Factor Journal Publication</i>	<i>Satellite & GIS Applications</i>	<i>Air Quality Monitoring</i>	
Climate Change and Role of Space Technologies in Pakistan			
<i>Panel Discussion</i>	<i>Consultation and Policy Making</i>	<i>Networking & Capacity Building</i>

International Conference on Remote Sensing, GIS & Climate Change (RSGCC-2023) Applications, Strategies, Solutions & Education (13 – 15 March 2023)

Remote Sensing, GIS and Climatic Research Lab (RSGCRL – NCGSA)

Centre for Remote Sensing
University of the Punjab, Lahore, Pakistan

Conference Events

- 94+ oral presentations
- 36+ poster presentations
- 7 workshops
- 3 panel discussions
- 19 technical sessions
- 6 professional networking sessions
- Parallel sessions/events at 6 venues
- Tree plantation drive
- Geospatial S&T exhibition
- Launching of ARGC

Presenters from

- 13+ Countries:**
Australia, Canada, China, El-Salvador, Germany, Hong Kong, Iran, New Zealand, Qatar, Portugal, Spain, Turkey, Zimbabwe
- 13+ Cities of Pakistan:**
(Bahawalpur, Faisalabad, Gujranwala, Haripur, Islamabad, Karachi, Khushab, Lahore, Multan, Murree, Peshawar, Quetta, Sialkot etc.)
- 1000+ participants/visitors**

Awards

- 19 best oral presentation awards by RSGCC-2023
- 6 best oral & poster presentation awards by SUPARCO & RSGCC-2023
- 3 best poster awards by i3A Pvt Ltd
- 3 best poster awards by IWMI, Pakistan
- 3 best oral presentation (related to Waters) awards by IWMI, Pakistan
- 7 panelist awards for "Educating Climate Change Panel Discussion Session" conducted by IER, PU
- 3 best exhibitor awards by RSGCC-2023
- 7 shields to Workshop Resource Persons
- 14 best performance awards to Conference Support Team

12 News and Photo Gallery *(cont'd.)*
