

PROF. DR. IDREES AHMAD NASIR

Career Highlights

Management

- ★ Managed 9 Research Projects as Project Director/Project Manager/Focal Person of worth 172.74 million PKR funded by international and national sources including PARB (2004-2016)
- ★ Representing Pakistan in CPEC on Cotton Research
- ★ Administrative Experience at Centre of Excellence in Molecular Biology University of the Punjab (1991-2004)

Research output

- ★ Two Bt Cotton Varieties (CEMB-33 & CA-12)
 - ★ First local transgenic sugarcane containing four transgenes
 - ★ Insect and glyphosate resistant hybrid Corn
- ★ Fusarium resistant Gladiolus
 - ★ Virus, fungus, frost & sweetening resistant Potato
- ★ 3 Patents, 6 PhDs, 32 MPhil students, reported 38 genes & more than 100 research publications including books

Pioneered (Pak)

- ★ Plant tissue culturing and direct plant transformation technology
- ★ siRNA & miRNA based virus resistance
 - ★ Modern Journal based scholarly publishing

EXECUTIVE SUMMARY

Visionary leader bringing over 25 years of experience in establishing operational optimization across diverse agricultural research field in both national and international levels. Recognized for talents in strategy development and providing research/science vision. Converts strategic plans into tactical reality through establishing sufficient human resource. Devises and implements new programs and initiates successful processes to produce new product with maximum impact to agriculture in Pakistan.

Expert in transforming strategic plans into tactical initiatives for national and regional requirements.

Motivator and coach combining research acumen with analytical depth to align operational efficiencies with national agricultures challenges and objectives.

EDUCATION

Ph. D. Horticultural Molecular biology from University of the Punjab, Lahore (2004)

M. Sc. (Hons) Horticulture from University of Agriculture Faisalabad (1986)

B. Sc. (Hons) Horticulture from University of Agriculture Faisalabad (1984)

F. Sc. Pre-Agriculture from University of Agriculture Faisalabad (1979)

M.SC. THESIS

PROPAGATION OF DATE PALM (*PHOENIX DACTYLIFERA* L.) BY IN VITRO TECHNOLOGY.

Ph.D. THESIS

REGENERATION RESPONSE OF CELL SUSPENSION OF GLADIOLUS.

Personal Information

| Name: - | PROF. DR. IDREES AHMAD NASIR |
| FATHER'S NAME:- | Khushal Muhammad |
| DESIGNATION: - | Professor |
| DATE OF BIRTH:- | September 25, 1961 |
| IDENTITY CARD NO:- | 35201-1266358-9 |
| MAILING ADDRESS: - | Center of Excellence in Molecular Biology, University of the Punjab, 87-West Canal Road, Thokar Niaz Baig, Lahore, Pakistan. |
| PHONE NO. (Residence): - | +92-42-35961316 |
| PHONE NO. (Mobile): - | +92-321-7440016 |
| Fax No:- | +92-42-35293147 & 49 |
| E-MAIL: - | dr.idrees@gmail.com , idreesnasir.cemb@pu.edu.pk |
| NATIONAL TAX NO: - | 06-20-0175611 |
| MARITAL STATUS: - | Married (Three Children) |

Achievements

1. For the very first time in Pakistan, I have developed insect resistant genetically modified advanced cotton varieties containing CEMB-double Bt genes. My two cotton varieties got first position in different set of trial across Pakistan conducted by the Pakistan Central Cotton Committee (PCCC). Afterward, my two cotton varieties namely **CEMB-33** and **CA-12** have been approved by PSC and Licensed of Commercialization by NBC for general cultivation in the Punjab. It is further pointed out that my third double gene variety CEMB-66 has also been approved and now waiting for the commercialization License from NBC.
2. New cotton line named as **CEMB-Klean Cotton** has been approved by the NBC for field testing. Technology testing and NCBT trials of CEMB-Klean cotton are being done by the CCRI, Multan and CCRI Sakrand. It has been estimated by the cotton experts that this new triple gene cotton will save about 150 billion Rupees in the cost of cotton production in Pakistan. The CEMB transgenic cotton technology has been Patented Vide Patent No: 142243. CEMB-Klean Cotton has won three awards in the invention to Innovation Summit i.e. First from University of Taxela and University of Peshawar and Second from the Punjab University.
3. I have also developed genetically modified insect and glyphosate resistant hybrid corn. Non transgenic version of CEMB-hybrid corn was evaluated by Maize and Millet Research Station, Sahiwal, Pakistan and rated among the top five hybrids out of 1050 hybrids tested.
4. I have also developed first local transgenic sugarcane containing four genes. Transgenic sugarcane with high sucrose is in Progress.
5. Furthermore, I have developed Fusarium resistance in the highly susceptible Gladiolus cultivars.

6. Developed virus resistance in Potato and sugarcane using siRNA gene silencing technique.
7. Established protocols for the mass production of pre-basic virus free seed potato. Our virus free Potato seed has been marketed by a private seed company, M/s AGB Seeds Pvt Limited for the last 10 years.
8. Developed synthetic seed production protocol of carrot, cucumber and potato.
9. Insect pest bioassays and field evaluation of our own formulated Bt and Mycorhiza based Biopesticides were completed on Cotton, Tomato, Cauliflower, Okra, Rice etc.
10. Thirty two M. Phil and six Ph.D. students have been awarded degrees under my supervision. Published over 100 research articles in scientific journal. Also published, one book & two book chapters discovered 38 novel genes, won nine research projects and claimed three patents.
11. I have also started an online peer-reviewed multi-discipline scientific journal "Advancements in Life Sciences (ALS)" web. www.als-journal.com as chief Editor. The ALS has been recognized by the HEC and placed in the "Y" category w.e.f. December 31, 2015.

Honors and Awards

1. Research Productivity Award 2011. Awarded by Pakistan Council for Science and Technology, Ministry of science and Technology, Islamabad.
2. Certificate of accomplishment for the excellent Preparation and Maintenance of Centres Interior Beautification and Landscape programme Awarded by the honorable Vice Chancellor University of the Punjab.
3. Received four Letters of appreciation for the excellent arrangement regarding beautification of Centre's premises during symposium/Bioforum, 1995, 1997, 2006 and 2008.
4. Performance Evaluation Award-2013 granted by the Vice Chancellor, University of the Punjab, Lahore, Pakistan.
5. Performance Evaluation Award-2014 granted by the Vice Chancellor, University of the Punjab, Lahore, Pakistan
6. Research Productivity Award 2014. Awarded by Pakistan Council for Science and Technology, Ministry of science and Technology, Islamabad.
7. My products won 1st prize in the 4th Invention to Innovation Summit, University of the Punjab Lahore.
8. My products won 1st prize in the 4th Invention to Innovation Summit, University of the Haripure.
9. Performance Evaluation Award-2015 granted by the Vice Chancellor, University of the Punjab, Lahore, Pakistan.

GMO Cotton Varieties Approved by PSC

1. CEMB-33 (Transgenic double Bt genes Cotton line)
2. CA-12 (Transgenic double Bt genes Cotton line)

GMO Cotton Variety Recommended by ESC

1. CEMB-66 (Transgenic double Bt genes Cotton line)

Worked as Project Director/Project Manager/Focal Person

1. Selection of Somaclonal variants for desirable flowers. **Funded by Ministry of Science & Technology at a total cost of Rs 01.12 Millions.(Completed)**
2. Disease Resistance through siRNA gene silencing in Sugarcane. **Funded by Ministry of Science & Technology at a total cost of Rs 36.45 Millions. (Completed).**
3. Development & commercialization of indigenous Bt and herbicide tolerant Maize hybrids. Funded by **The Punjab Agriculture Research Board, Lahore, Pakistan** at a cost of Rs. 22.829 million **(In progress).**
4. Genetic Improvement of Sugarcane for Herbicide and Borer Resistance. Funded by **The Punjab Agriculture Research Board, Lahore, Pakistan** at a cost of Rs. 22.148 Millions **(In progress).**
5. Development and Commercialization of Cotton Leaf Curl Virus resistant/tolerant indigenous transgenic Bt and glyphosate resistant Cotton hybrids. **Funded by The Punjab Agriculture Research Board, Lahore, Pakistan** at a total cost of Rs. 35.766 Millions **(In progress).**
6. Transformation of gene Constructs and genetically engineered germplasm resources/ commercial genotypes resistant to develop cotton leaf curl disease and/or its insect vector **(Focal Person).** **Funded by ICARDA at USD 0.40 Million (in progress).**
7. Laboratory Bioassays of Maize Stem Borer for determination of efficacy of Bt Proteins. **Funded by Pioneer Dupont, USA,** at USD 70,490 **(In progress).**
8. Genetic improvement of potato cultivars for frost tolerance. **Approved by TWG of The Punjab Agriculture Research Board, Lahore, Pakistan** at a total cost of 35.450 Million.
9. Genetic improvement of potato against cold induced sweetening through integration of anti-sweetening gene (s). Approved by HEC at a cost of Rs. 08.208 Millions.

Patents

1. Novel transgenic approach to decrease cost of cotton production in Pakistan (IPO # 765/2010).
2. Development of Pakistani Cotton Containing Virus Resistant Transgenes (IPO # 939/2011).
3. Development of Pakistani Sugarcane Containing siRNA against SCMV (IPO # 26/2012).

Thesis Supervised

Ph.D. STUDENTS SUPERVISED

- Six Ph.D. students have been awarded Ph.D degrees by the University of the Punjab, Lahore, Pakistan. Four students are writing their Ph.D theses and five Ph.D. students are doing their research work under my direct supervision.

M.PHIL STUDENTS SUPERVISED

- Thirty two M.Phil students have completed their thesis research work under my supervision.

Workshops/Conferences/Symposiums/Certificates

1. Contributed as resource person in the Training course on “Using Molecular Techniques for Cotton Breeding” sponsored by SESRIC (OIC-CTP) held on October 04-05, 2016, University of Khartoum, Sudan.
2. Successfully completed training course on “Publishing Life Science Research Workshop” hosted by the American society for Microbiology at Pullman hotel Bangkok, May 02-04, 2016.
3. Contributed as resource person in the Training course on “Mitigating the devastating effect of Lepidopteran insect through Molecular and Conventional Approaches” arranged by SESRIC (OIC-CTP) held on March 29-31, 2016, Ankara, Turkey.
4. Attended “PLANT AND ANIMAL GENOME CONFERENCE-2015” held at San Diago, CA, USA, January 10-14, 2015.
5. Biotechnology Cluster. FC College University, Lahore Pakistan 2014.

6. "The Development and Testing of Transgenic for Cotton Leaf Curl Virus (CLCuV) Disease Resistance" by Pak-US Cotton Productivity Enhancement Program of ICARDA, March 18-19, 2014.
7. Cotton Breeders Tour-2013, September 15 - 18, 2013, Lubbock, Texas USA.
8. Advanced training on detection of GMOs, July 15-31, 2011, Nanjing Agriculture University, Nanjing, China.
9. 7th International Conference "trends in biochemistry and molecular biology", April 2-5, 2003.
10. 1st National Conference of Biology, March 28-30, 2002
11. 7th National Conference of Plant Scientists, November 14-16, 2000
12. "Processing Disciplinary Cases under Removal from Service (Special Powers) Ordinance – 2000". 3-8 March 2003. Secretariat Training Institute Establishment Division, Islamabad
13. "Certificate of Accomplishment for Excellent Maintenance of Centre's Building and Lawns" by Vice Chancellor University of the Punjab.
14. Certificate of Service for serving as cadet in National Guards from October 1976 to March 1978.

Invited Evaluations

1. As Third Party Evaluator for PARB Project 235 by Punjab Agriculture Research Board. October 2012.
2. Evaluation of horticulture at COMSAT Institute of Information Technology, Lahore. March 2009.

Membership of Various Administrative bodies

1. Member of the American Society for Microbiology, USA.
2. Member of the Horticulture Core-committee, Pakistan Horticultural Research Board. Lahore Pakistan.
3. Member of the Sub-committee of the Technical Advisory Committee (NBC), Islamabad, Pakistan.
4. Chairman, Auction Committee, CEMB, University of the Punjab, Lahore, Pakistan.
5. Chairman Landscape Committee, CEMB, University of the Punjab, Lahore, Pakistan.
6. Member, Departmental Promotion Committee, CEMB, University of the Punjab, Lahore, Pakistan.
7. Member, Departmental Technical Review Panel, CEMB, University of the Punjab, Lahore, Pakistan.
8. Member, Departmental Selection Committee, CEMB, University of the Punjab, Lahore, Pakistan

9. Member, Admission Committee for M.Phil/Ph.D CEMB, University of the Punjab, Lahore, Pakistan.

Genes Discovered

1. Hossain,M.B., **Nasir, I. A.**, Tabassum, B. and Ahmed,S. 2011. Potato leaf roll virus coat protein-like (CP) gene, partial sequence. Accession No. JN039286, NCBI Gene Bank Database.
2. Hossain,M.B., Nasir,A., Ahmed,S. and Husnain,T 2011. Sugarcane mosaic virus coat protein-like (CP) gene, partial sequence. Accession No, JQ612542, NCBI Gene Bank Database.
3.
