A book on the collection of Columns namely **“JAB PAKISTAN WAPIS MILY GA”**. The preface of the book is for the common poor man of Pakistan, the farmers, labourers, working children, victimized women and it addresses to all the social evils and points out the very vicious cycle of poverty , illiteracy and unemployment . The columns unveiled the bitter face of reality which is always very harsh to accept yet it exists. The columns have a very bold appeal and their approach is very sublime & subtle.
