Department of General Surgery Unit no 3, Services Hospital, Lahore
8. January 01,1990 to June 1990 , House Physician
Medicine , Unit No 3 Services Hospital Lahore

SURGICAL TRAINING AND WORK EXPERIENCE IN OPHTHALMOLOGY

I observed and learned from number of well renowned ophthalmic surgeons of all specialties while working in different teaching hospitals of the country during my training as a part 2 fellowship trainee.

DIAGNOSTIC PROCEDURES

Vision testing by modern auto chart projector
Slit lamp examination techniques
Applanation tonometry
Gonioscopy
Exophthalmometry
Biometric reading for calculating iol power
Keratometry for contact lenses
Bscan ultrasonography
Digital fundus fluoresceinangiography
Prism bars to assess angle of deviation

MINOR PROCEDURES

1. Punctal dilation and syringing
2. Three snip procedure
3. Accidental repair of lacrimal passages
4. Ectropion ,entropion repair
5. Congenital coloboma repair
6. Lid repair secondary to trauma ,tumour
7. Pterygium repair with graft

MAJOR PROCEDURES

1. Extra capsular cataract extraction with IOL implantation
2. Phacoemulsification with Foldable, Toric and Multifocal lenses
3. Scleral Fixation of Iol in Aphakic and pseudophakic cases
4. Paediatric Iol procedure, in the bag placement of Iol, Primary Posterior Capsulotomy and anterior Vitrectomy
5. Trabeculotomy with Mitomycin C
6. Management of Congenital Glaucoma by Ahmed glaucoma valve
7. Strabismus Surgery involving horizontal and oblique muscles
8. Congenital Ptosis correction by sling procedure

9. Dacryocystorhonestomy with Intubation
10. Medical Retina Procedures ,Intravitreal injection to treat Endophthalmitis, Diabetic Retinopathy ,Venous Occlusions etc

Argon laser , yag laser, diode laser application in specific indications

Special Interest

I have special interest in corneal refractive procedures like surface procedures ,photorefractive keratotomy,(prk), laser assisted subepithelial keratomelisis (lasik). Laser insitu keratomelisis (lasik) and Femtosecond laser technology.

For keratoconus and corneal ectasia performed corneal cross linkage with riboflavin both without epithelium and with epithelium on .

Dissertation submitted to the college of phscian &surgeons of pakistan for final fellowship

SCIENTIFIC CONFERENCE ATTENDED

Participated in the annual congress under the supervision of ophthalmological society of pakistan from year 1993 to 2013. Presented scientific paper on “ comparative analysis between fornix based vs limbal base conjunctival flap in trabeculectomy, in Pakistan Golden Jubilee congress of

In 2011, I presented research paper;;visual outcome after laser assisted sub epithelial keratomelisis in low to moderate myopia.

Second paper ;use of orbiscan as mandatory tool in refractive surgery;;,was also presented.

In 2012 at Bhurban central ophthalmological society Islamabad meeting research paper ;analysis and efficacy of lasek in case of myopia “ was presented.

MEMBER OF OPHTHALMIC SOCIETIES

Ophthalmological Society of Pakistan

American society of Cataract and Refractive Surgery

EXPOSURE IN COMMUNITY WORK

1, participated in various eye camps held under the supervision of society for the prevention and cure of Blindness, held at Lahore, Pakpattan, Multan, Shekupura and various places of the country.
