Dr. Muzammil Tahira is highly self-motivated, passionate, and dedicated information professional with over 27 years of experience. Her career spans across roles as an information professional, researcher, and academician at national and international platforms. Notably, she holds the distinction of being the first Pakistani female information professional to complete MPhil from the University of Punjab (2005-2008) and the first to earn a foreign doctorate from University Technology, Malaysia (2010-2014), supported by an International Doctoral Scholarship (2011-2013). She served as a Senior Lecturer (Assistant Professor) at the Department of Library and Information Science, University of Malaya (2015-2016), a notable institution ranked 59th by QS. At UM, she has been actively involved in teaching, research activities, internal examination processes, Board of Studies (BOS) and guiding research projects at both master and PhD levels. Dr. Tahira has also contributed as a visiting Assistant Professor at the Institute of Information Management, University of Punjab, where she has taught various courses, engaged in BOS, evaluated MPhil and PhD candidates as an external examiner. Her active participations in over 40 LIS & IM conferences, workshops and seminars (attended, resource person and conducted) at national & international level has significantly contributed well to learn new trends and publishing on diverse topic of IM. She has published significantly in well reputed IF and HEC recognized Journals. Two of her research publications got international best papers award from SCRG, UTM, Malaysia and SIG111 of ASIS&T. She is remained country representative of SLA, Asian Chapter for two consecutive years (2009-2010), awarded honorary membership and also served as a jury member for IPC by SIG111 of ASIS&T. She was part of Promotional Linked Training of higher education faculty for three year (2018 to 2020) organized by PHEC, received grant from HEC and conducted workshop for information professionals. She has upgraded UE libraries system from manual to automate with minimum sources, completion of PC-1 project from designing, construction execution and building a, state of art three levels Central Library to serve 1000 daily users and initiated many new users centered services to facilitate library users.

Research Interest: Scientometrics; Information Needs and Seeking Behavior (INSB); Information and Digital Literacy; Internet of Things (IoT); Data Visualization; Scholarly Communication and Information Management Practices.
