Quaid-e-Azam Campus, Lahore (Pakistan)

FIRST INTERNATIONAL CONFERENCE ON STATISTICS & OPERATIONS RESEARCH

The Institute of Statistics, being the premier institution of higher education in Statistics & Operations Research in Pakistan is promoting, imparting and acquiring the traditional as well as nontraditional knowledge & research through conferences, teaching and learning.

We have planned to hold the '**First International Conference on Statistics & Operations Research**' from April 3 – 5, 2006.

The Conference aims at reinforcing scientific and technological collaboration between the foreign and Pakistani scholars at a very high level, in a move to develop sustainable scientifically-based strategies for the management and preservation of state-of-art areas of Statistics, Applied & Mathematical Statistics, Operations Research, Actuarial Sciences, Risk Management and Biostatistics. Exchange of ideas, expertise, experiences and know-how between researchers, end-users and policy makers.

The Conference will provide a useful opportunity to the participants to share knowledge of their latest researches in different fields of Statistics & Operations Research with its broad scope, and to develop future collaborations across disciplines and borders.

Research Scholars from all over the world are invited to participate and present papers on theoretical, methodological, and applied contributions that advance the knowledge of Statistics, Probability, Biostatistics, Actuarial Sciences and Operations Research.

The holding of an International Conference involves so much financial aspects. The Organizing Committee is trying its best. I am confident that the Institute of Statistics, at University of the Punjab, would meet this challenge and organize this event successfully.

I welcome all the statisticians to the historical city of Lahore which is a cultural hub of Pakistan. I wish you success with your deliberations.
