1st National Geographical Conference on Sustainable Earth Resources & Planning

December 5th-7th, 2024

Organized by
Institute of Geography
University of the Punjab, Lahore-Pakistan

Tel: +92 42 99230419, Email: conference.geog@pu.edu.pk

INTRODUCTION

The First National Geographical Conference on “Sustainable Earth Resources & Planning” is poised to be a landmark event, gathering renowned geographers, scholars, and industrial experts from around the Pakistan. It is Scheduled to take place from 5th to 6th December 2024 followed by an excursion at Lahore Fort on 7th December 2024. This conference offers a unique platform to explore the latest advancements in geographical research and their implications for society.

Focusing on “Sustainable Earth Resources & Planning,” the event will explore a wide range of topics, including Climate Change, Urban planning, Remote Sensing, GIS, and Spatial Analysis. By bringing together diverse perspectives and fostering interdisciplinary dialogue, the conference aims to address pressing global challenges and shape the future of geographical inquiry.

Participants will share their insights, exchange ideas, and collaborate on innovative projects through a keynote speech and paper presentations. The conference will also highlight the importance of Geographical education and public engagement, emphasizing the role of Geography in addressing global challenges and informing policy decisions.

CONFERENCE THEMES

The Conference will include, but not be limited to the following themes:

- Climate Change, Mitigation, and Adaptation
- Disaster Resilience in Sustainable Development
- Earth Resources Planning and Sustainability
- Economic Geography and Globalization
- Geographies of Health and Pandemic Preparedness
- Geographies of Tourism and Authenticity
- Geospatial and Geotechnical Applications in Sustainable Development
- Landscape Agroecology
- New Directions in Cultural Geography
- Population and Sustainable Development
- Regional Planning and Space Management
- Theoretical and Epistemological implications of Geography
- Transport Geography and Sustainable Development Perspectives
- Urban Geography and Modern Urban Trends
