Curator's Note:

The post-World War II era fabricated various tools to enunciate certain thoughts and pronouncements. Several post-modernists used fiber as a medium for expression and used textile and fiber into high art. Fiber authors use the 'language of thread' addressing certain social, political, and traditional concerns. The College of Art and Design, University of the Punjab, Lahore has a wonderful tradition of mounting various exhibitions. Department of Textile Design has initiated "Fiber Art Exhibition" in 2021 and intends to continue the legacy in 2022 to put the fiber artists on the National map. Viewers are able to see variety of textile techniques like embroidery, crochet, needle punching, soft sculpture, printing, weaving, relief work and embellishment assembled incredibly. The aim is to highlight the purposeful role of textile arts in establishing the better prospects of the world.
