FIBER ART EXHIBITION

2024

Curator Note:

The 4th Fiber Art Exhibition celebrates the enduring friendship between Pakistan and China, two nations united by a shared vision of peace, prosperity, and cultural exchange. It highlights the universal language of art and the values that underpin the relationship between the two nations. The works on display showcase the richness and diversity of artistic traditions in both countries, from intricate embroidery, needle tatting, off loom weaving and fabric slashing to vibrant tie and dye and batik.

Through the universal language of fiber art, our artists convey the warmth and depth of Pak-China relations, weaving together stories of mutual respect, trust, and cooperation. Each piece is a testament to the boundless potential of creative collaboration and the unbreakable bond between our nations. As we marvel at the beauty and craftsmanship of these fiber art pieces, let us also reflect on the values that underpin our friendship: solidarity, understanding, and a shared commitment to a brighter future. This exhibition celebrates the cultural exchange and friendship between Pakistan and China through fiber art.
