FIBER ART EXHIBITION'26

Department of Textile Dessign
College of Art & Design
University of the Punjab

Curator's Note

Fiber Art Exhibition 2026 celebrates the beauty and diversity of nature through the expressive possibilities of fiber art. Bringing together varied landscapes, vibrant floral compositions, and intricate natural forms, the exhibition explores the relationship between nature, creativity, and textile craftsmanship.

The artworks capture the essence of the natural world, translating scenic landscapes, floral bunches, and botanical elements into intricate hand-embroidered compositions. Inspired by the colors, forms, and delicate details of nature, each piece reflects a unique artistic interpretation of the environment. The use of diverse hand embroidery stitches adds depth, texture, and visual richness, highlighting the skill, patience, and creativity involved in the process.

Through a variety of styles and techniques, the exhibition presents different perspectives on nature, transforming organic forms and scenic views into tactile visual expressions. Each artwork invites viewers to observe the natural world more closely and appreciate its endless possibilities as a source of artistic inspiration.

This exhibition is a collaborative initiative of the Department of Textile Design, College of Art and Design (PUCAD), and Shakir Ali Museum. The collaboration provides a platform for creative exploration and celebrates fiber art as a medium of artistic expression.
