**Department of Microbiology and
Molecular Genetics
University of the Punjab, Lahore**

Department of Microbiology and Molecular Genetics, University of the Punjab have progressed leaps and bounds because it is the most demanding field for benefiting the human kind.

Competition between algae (green) and purple non-sulfur bacteria (red).
By Dr. Yasir Rehman, MMG

Art has always influenced the scientists in their creative abilities. While working with your cultures you can diversify your vision and enhance your mental capabilities. Art provides a way to scientists to make their work more enjoyable and develop enthusiasm in them while working efficiently.
